

PRODUCT

Each piece of our olive wood tableware collection is hand-carved in Kenya from sustainably sourced fallen trees.

They are then rubbed with sunflower oil to bring out their rich color and preserve their natural beauty.

Please be aware that no two pieces will be identical and they will vary slightly in size. Handwash only.

ARTISAN

Mutuku has been working with olive wood in rural Kenya his entire life. He and his team cover large areas collecting fallen wood.

At their workshop, they hand-carve each piece into beautiful tabletop functional decor. The entire community benefits from this skilled trade and the area is now known throughout Kenya for its woodwork.
